

# Class Party!

## Party Planning Worksheet

You will be planning a class party! Your pre-determined budget is \$\_\_\_\_. The party will take place in the school gym and the principal will provide a DJ! The following are considerations/criteria:

- You are encouraged to choose a variety of foods and beverages based on their nutritional value.
- Dietary restrictions include: all food must be nut-free; one student has a gluten allergy and five students are vegetarian.

Go through print and online flyers for all your party needs and be sure to include your sources (refer to the example with a budget of \$50 below).

**Be ready to present your ideas and budget to the class.**

Number Of People:	Party Theme:	Total Budget: \$_____ Food/Drink Budget: \$_____ Decorations Budget: \$_____
Food/Drink and Decor Description	Price and Quantity	Balance
Dollar Store: Party Banner	1 at \$2.00	\$50.00 - \$2.00 = \$48.00

**Organize your ideas on the back of this page to present your budget to the class.**
