

Ophea's Healthy Schools Certification

www.ophea.net/HSCertification

A "Healthy School" involves the whole school community coming together to share ideas, plan, and take action. When this is done, students will be better equipped to meet the challenges of today and tomorrow, to excel academically, to be empowered to make healthy choices, and to manage the risks that they face.

Healthy Schools (HS) Certification can help your school increase student engagement, parent engagement, community partnerships, and connect the dots to make your school a healthier place.

Ophea's HS Certification recognizes and celebrates school communities for promoting and enhancing the health and well-being of students, school staff, and the broader community.
